COMMITTEES
Ruling of the Chairman by which a Motion was carried cannot be over-ruled by the
341] Speaker *Feb* 12, 1571
An Instruction to Com. cannot be moved
342] without notice *Mar* 18, 1124
344] An Amendt. to the first of a number of Amendts. for Instructions to Com., which resembles the Motion "That the

[*cont.*

SPEAKER, The—*cont.*
344] House do pass to the Orders of the Day," and by which the House disembarrasses itself of matters which it does not wish to pass judgment on, and proceeds to its appointed business, is not out of order

The new Rule, that the Speaker leave the Chair without Question put, would be robbed altogether of force if a number of Instructions are put down so as to prevent the Speaker leaving the Chair

A Member cannot be allowed to put down more than one Instruction, as it gives him a greater right of speaking than he has on the 2R. of the Bill

When the Instruction itself is out of order it is impossible to move an Amendt. to bring in that Instruction *May* 2, 19, 22

If there are no other Instructions down besides those which are out of order, and, therefore, no Question before the House, the Speaker technically would have to leave the Chair, without Question put, and allow the proceedings to be completed, as they originated before 12 o'clock *June*
345] 5, 136, 137, 138; *June* 6, 162

Instructions which might be carried out by Amendts. or clauses in Com. are irregular. There is a difference between an Instruction to a Com. and an Amendt. on the 2R., which traverses the principle of the Bill. When a Bill has been read a second time the House has assented to the principle of the Bill. When the House is ready to go into Com. the Standing Order allows the Speaker to leave the Chair without Question put; but there is a reservation with regard to Instructions to the Com. If an Instruction moved on that occasion were to traverse the principle of the Bill, that would virtually be a 2R. Debate. It would be an Amendt. to the principle of the Bill, and would therefore reduce to a minimum and nullify altogether the provisions of the Standing Order, that the Speaker leave the Chair without Question put. The precedents have no Instructions which go beyond the machinery necessary to carry out the general purpose and scope of a Bill *June* 9, 347, 348, 350

It is not necessary to move an Instruction when the Com. have power to do what the Instruction requires *June* 10, 527

Amendt. which cannot be connected with certain clauses of a Bill in Com. cannot be brought in as an Instruction, as there would be no opportunity of putting down notice of the Instruction. The other Instructions being out of order, a Member cannot move an Instruction without notice, and the present Instructions being disposed of the Speaker leaves the Chair *June* 24, 1874

[*cont.*

SPEAKER, The—*cont.*

If the nomination of a Com. is set down for the commencement of business, a Member will have difficulty in moving
346] certain Amendts. *July* 1, 584

The Standing Order only permits a short statement on the Motion for nomination of Com.

It is not competent for a Member to move, without notice, the insertion of another name—he may move to omit any particular name *July* 14, 1615, 1617

RULES AND ORDER OF DEBATE

Debate on the Address—A preliminary discussion on a matter upon which there is an Amendt. on the Paper is out of order in the general discussion on the Address
341] *Feb* 13, 221

Whether an Amendt. qualifying an Amendt. to an Amendt. can be brought forward will depend on the decision of the House on the Question whether the words proposed to be left out be retained. Should that proposal be negatived and the second Amendt. be inserted, then it would be competent to move the Amendt. *Feb* 19, 723

An Amendt. cannot be moved when it raises a discussion on a Bill of which notice has been given by the Government *Feb* 20, 762

A Member cannot speak more than once on a Main Question without the indulgence of the House *Feb* 20, 766

It is incompetent to dwell on a matter which is the subject of a Bill in Parliament; it can be called attention to in general terms *Feb* 24, 1075

When a statement is made affecting a Member, an explanatory interruption is
342]allowable *Mar* 5, 41; *Mar* 12, 651, 652

The original Motion and Amendts. on it should be read together on resuming Adjourned Debate *Mar* 10, 362

If a Debate is concluded within the limits of the ordinary time, the rest of the Paper can be proceeded with *Mar* 10, 361

A Notice of Motion should be given to revive a dropped Order

The only precedent is when Supply has been counted out on Friday it has been set up by a notice on Monday

There is no distinction between Supply as an Order of the Day and any other Government Business, which has been, up to the count-out, an Order of the Day. If proper notice has been given it is competent for the House to go on under that notice which was interrupted by the count-out, provided that it is convenient to the House that it should be pursued on the next day

Such notices should be given during the sitting of the House. There must be a limit of time within which notices are handed in; but there is no absolute limit within a few seconds or even a few minutes

Though Supply is governed by a Standing Order, and may occupy any place on Monday's Paper, it does not follow that Supply will be taken on Monday

It is not within the power of every Member who has his Motion or his Bill counted-out to move at 4 o'clock on the next day that his Motion or Bill be taken that day. Motions at half-past 4 o'clock relating to the Business of the House are reserved for Members of the Government

There is a difference between a private Member's position and that of the Government in relation to the arrangement of Business

The Adjourned Debate can only come on as the first Order of the Day after the Motion for resuming Adjourned Debate has been taken *Mar* 10, 348, 349, 350, 351, 352, 353, 354, 356

The remarks of the Mover of an Amendt. must be relative to the Amendt. *Mar* 13, 755

Motions standing in the names of Members on the Estimates are carried on to a future day. They are taken off if desired. The Motion must be moved while the Speaker is in the Chair, as the right of private Members is exhausted on first going into Committee of Supply. On Fridays it is competent for Members to move Motions on the Question that the Speaker leave the Chair *Mar* 14, 881

A Member exhausts his right of speaking on the Main Question by seconding a Motion for Adjournment *Mar* 17, 1087

Wednesday Sittings—The Rule that the House cannot be counted-out until 4 o'clock can be altered by Res., or the Speaker might decide not to come into the House until there is a sufficient quorum, or when a quorum is not formed by half-past 12 o'clock he might leave the Chair for a quarter of an hour that a House might be made *Mar* 20, 1260

One Order of the Day can be separated from another, in the case of a Money Bill, to give it precedence over Notices of Motions on private Members' nights. The practice is extended to all Bills which are urgent. The judgment of the House is conclusive as to urgency *Mar* 25, 1822

When an Order for 2R. is opposed it is necessary, in accordance with the Standing Orders, to put it down for the next day; but the 2R. by arrangement can
344]then be deferred *May* 20, 1392

A Member is not entitled to refer in Debate to what takes place in Com., of which the House has no cognisance when the Speaker is in the Chair *May* 20, 1424

A Member is entirely out of order in referring by anticipation to matters to be dealt with in Bills before the House *May* 6, 307, 308

The Motion for Supply being still before the House after a Division for Adjournment, there is no need for the Government to set up Supply again for the purpose of enabling a Member to speak. Neither is the Speaker bound to call upon a Member when the Motion is an Amendt. to the Motion that the Speaker leave the Chair. The Member should rise when the Speaker proclaims "Motion withdrawn, Supply Monday," otherwise the Motion on which the Member's notice gives him the right to speak is withdrawn, and his right disappears

The Member could have challenged a Division on the Motion that the Speaker leave the Chair, but not on his own Motion

If a Member had objected to the withdrawal of Supply, the Motion could not have been withdrawn without discussion *May* 16, 1207, 1208, 1212

It is unusual to ask a question upon an Order before the Order is reached *June* 9
345]435

It is usual to observe the Instruction of the Member in charge of the Bill as to the date of postponement *June* 9, 436

A single objection is sufficient to arrest the progress of a Bill after 12 o'clock *June* 10, 580

[*cont.*

PEAKER, The—*cont.*

A Motion for Adjournment to discuss the arrangement of Public Business, a Notice having been given, is not a "definite subject of public importance," and cannot be
345] moved *June* 12, 738

An Amendt. temporarily withdrawn, to permit another Amendt. to be moved, can be renewed if the latter Amendt. is withdrawn *June* 18, 1261

An Amendt. declaring that the operation of an Act shall be from the date of its passing, after it has been agreed that it shall come into operation at a later date, cannot be moved at the advanced stage of the consideration of the Bill *June* 25, 1906

The question of a tax being raised, and the proceeds appropriated to no particular authority and to no specific object, it is for the House to consider, as a matter of policy and interpretation, whether the words of an Amendt. can constitute a sufficient appropriation of the sum raised and granted by the Budget Act, so as to come within the general principle underlying the whole Law, namely, the appropriation of money to a specific use within the then existing Session of Parliament. If no Act is passed within this Session appropriating the sum allotted under the Budget Act, the Treasury might incur responsibility and liabilities. From a Constitutional point of view there is no precedent for such an accumulation. Members can raise it as a question of policy or of principle, both in Com. and on 3R. *June* 24, 1801, 1805

Money Bills cannot be read the third time on the same day as the Report stage *June*
346] 30, 340

A Member cannot at an advanced stage of the Debate on 3R. move that the 3R. be deferred; he can vote against the Motion for 3R. *July* 2, 587

Objection does not lie against a Motion to amend Rules (Merchant Shipping — Life-Saving Appliances) — which is in pursuance of the Standing Order, the Rules remaining before the House for
347] a certain time for approval *July* 17, 184

A Member having spoken and moved the Adjournment of the Debate has exhausted his right to speak *July* 22, 542

It is competent for a Member to move a Res. superseding the Motion that the Bill be read a second time *July* 24, 744

A Member may embody in a Res. such points stated in a Schedule to an Act as he may desire to refer to *July* 24, 744

When a Member has only spoken on a Question of Adjournment, he is entitled to take part in the Debate on the Main Question *July* 29, 1270

SPEAKER, The—*cont.*

When the assent of the House to the provisions of a Bill is necessary under a Statute the Bill is exempt from the Rules of a Money Bill, and more than one stage
347] can be taken at a Sitting *Aug* 1, 1649

Only by the consent of the House can Com., Report, and 3R. of a Bill be taken at one Sitting at a time. When Supply is not taken, and the Appropriation Bill not reached, and if there is the least ob-
348] jection, the Bill stands over *Aug* 6, 20

When the Standing Orders have been suspended, a Motion cannot, unless by arrangement, be postponed beyond the day fixed for taking the Motion *Aug* 9, 366

If the suspension of a Standing Order covers anything, it will cover everything that is proposed to be taken into consideration that day, the Lords Amendts. included *Aug* 11, 472

Amendts. to the Lords Amendts. must be first disposed of before taking the Motion "that we disagree with the Lords Amendts." *Aug* 12, 676

The general Rule is to put the Motion that the House do agree with the Lords Amendts. A Member who has an Amendt. to reject the Lords Amendts. would vote against the Motion *Aug* 12, 687

When an Amendt. to insert a Proviso is withdrawn, a second Amendt. to insert another Proviso is in order *Aug* 12, 691

It is not unreasonable for a Minister to state the opinion of certain Members of the Government *Aug* 12, 692

When urgency is in the nature of the case, two or more stages of one Bill can be taken at one sitting. It is not so much a question of leave of the House, but of a vote. There is no fixed number of Members required before a Bill can be taken in this way *Aug* 15, 1148

SUPPLY

Arrangement of Votes—Motion for Adjournment of the House to discuss the new arrangement of Votes should be
341] made on the Com. of Supply *Feb* 28, 1522, 1523

If the Vote on Account is passed it is for the House to decide whether it will preclude any further question being raised on the re-arrangement *Feb* 28, 1521

If the existing power of the Public Accounts Com. be exceeded in considering the new Form of Votes, then an Instruction will be required to enable the Com. to consider the special question *Feb* 28, 1522

Res. "That Proceedings thereon shall not be interrupted." The words left out of the Motion, "But after such proceedings are disposed of no opposed business shall be taken," are not necessary. The words of the Standing Order would come into operation, and the business of the Sitting would be dealt with according to the Rules applicable to measures taken after
343] 12 o'clock *April* 15, 561

[*cont.*

SPEAKER, The—*cont.*
The Order Paper being clear of Amendts. it is within the power of the Government to put down Supply and go on with it; but it is not within the power of any Member on that day to put down a notice 343]of Amendt. *April* 25, 1421
An alteration in the arrangement of Votes can be made by the consent of the House 348]*Aug* 8, 274
